“Wyandanch is a small community and often times familiarity sets in and many positive contributions are overlooked,” said Positive Wyandanch Men Chairperson, Rodney Jones. “Providing our youth with positive role models that are within our community, who have walked in their shoes and have overcome challenges provides a sense of hope and aspiration that inspires them to achieve.”

“It is truly an honor to receive this recognition,” said Presiding Officer Gregory. “I am a proud supporter and proponent of Positive Wyandanch Men and all that the organization does. Highlighting and honoring the positive achievements of residents has a true impact on the Wyandanch community.”
